

The Clemson Housing Data folder contains the following files

1. Housing Data Dictionary.docx (this file)
2. Entriescheckedinby 9.13.19.csv (cleansed)
3. COVID Housing Day Level Summarization through 4-30-2021.csv (do not need to clean) September 2020 through April 2021
4. COVID Housing Case Comments through 12-14-2020.csv (cleansed)
5. COVID Housing Case Level Summarization through 4-30-2021.csv (cleansed)
6. COVID Housing Jira Event History through 4-30-2021.csv (cleansed)

Definitions:

- Isolation: Person has a positive test for COVID-19 and is in an assigned dorm or hotel room or has return to an off-campus housing environment (permanent address, for example)
- Quarantine: Person has been exposed to a person with a positive test for COVID-19 and is in an assigned dorm or hotel room or has return to an off-campus housing environment (permanent address, for example)
- IQ_in_place: person is in Isolation or Quarantine but is in their usual housing setting (such as, in dorm room with other people in the same status, or already is only person in their housing)

Entriescheckedinby 9.3.19.csv

Label (Column)	Format	Description
UniqueID (A)	Integer	Unique ID for people in the file collect
Actual Check-In (B)	MM/DD/YY HH:MM AM/PM	Date the student checked into housing for the Fall 2019 semester
Actual Check-Out (C)	MM/DD/YY HH:MM AM/PM	Date the student checked out of housing for the Fall 2019 semester (leaving for winter break)
Room Location Description (D)	char	Dormitory Name
Room Space Description (E)	char	Bed assignment (Room and Bed number)

COVID Housing Day Level Summarization through 4-30-2021.csv

Label (Column)	Format	Description
id (A)	Integer	Entry number
dayframe (B)	MM/DD/YYYY	Day for which data is summarized
isolation_total (C)	Integer	Total number of students in isolation in Clemson-managed location but not in their usual housing
quarantine_total (D)	Integer	Total number of students in quarantine in Clemson-managed location but not in their usual housing
IQ_in_place_total (E)	Integer	Total number of students in isolation or quarantine in their usual housing
new_quarantine_checkedin (F)	Integer	Number of new quarantine check-ins into Clemson-managed housing
new_isolation_checkedin (G)	Integer	Number of new isolation check-ins into Clemson-managed housing
new_quarantine_gonehome (H)	Integer	Number of new quarantine students who went to non-Clemson managed housing
new_isolation_gonehome (I)	Integer	Number of new isolation students who went to non-Clemson managed housing
meals_total (J)	Integer	Total number of meals provided
meal_box_total (K)	Integer	Total number of mealboxes provided
new_quarantine_to_isolation (L)	Integer	Number of new isolation students who were in quarantine
quarantine_checkouts (M)	Integer	Number of students who left quarantine status
isolation_checkouts (N)	Integer	Number of students who left isolation status

COVID Housing Case Comments through 12-14-2020.csv

Label (Column)	Format	Description
id (A)	Integer	Entry number
issue_key (B)	HOUSING-#####	Identifier of record into which comment was entered
comment_text (C)	char	Free text information

Label (Column)	Format	Description
comment_creation_time (D)	MM/DD/YYYY hh:mm	Military time at which comment was entered

COVID Housing Case Level Summarization through 4-30-2021.csv

Label (Column)	Format	Description
id (A)	Integer	Entry number
issue_key (B)	HOUSING- #####	Identifier of record into which comment was entered
unique_id (C)	integer	Generated unique identifier for each student
start_date (D)	MM/DD/YYYY	Date the case initially was opened
original_end_date (E)	MM/DD/YYYY	Anticipated end date for the case
reopened (F)	TRUE / FALSE	True if the case was reopened
reopen_date (G)	MM/DD/YYYY	Date case was reopened
final_end_date (H)	MM/DD/YYYY	Date case was closed completely
from_redfern (I)	MM/DD/YYYY	Date case was referred from Redfern
quarantine_checkin_date (J)	MM/DD/YYYY	Date the student checked in for quarantine
isolation_checkin_date (K)	MM/DD/YYYY	Date the student checked in for quarantine
gone_home_date (L)	MM/DD/YYYY	Date the student returned "home" or to off-campus housing
gone_home_after_checkin (M)	TRUE / FALSE	True if the student went "home" after checking into Clemson-approved quarantine or isolation housing
gone_home_roomspace (N)	char	Location of student during quarantine or isolation if not in Clemson-approved quarantine or isolation housing
checkin_day_roomspace (O)	char	Location of student during quarantine or isolation
q_to_i_case (P)	TRUE / FALSE	True if the student transitioned from quarantine status (exposure) to isolation status (positive)
q_to_i_date (Q)	MM/DD/YYYY	Date on which the student transitioned from quarantine status (exposure) to isolation status (positive)
q_to_i_new_roomspace (R)	char	Location of student during isolation after quarantine
quarantine_checkout_date (S)	MM/DD/YYYY	Date exiting quarantine housing
isolation_checkout_date (T)	MM/DD/YYYY	Date exiting isolation housing
checkout_roomspace (U)	char	Location from which the student was checked out
clean_status_date (V)	MM/DD/YYYY	Date student exits quarantine or isolation status
closed_date (W)	MM/DD/YYYY	Date the case was closed
bridge_student (X)	TRUE / FALSE	True if the student is enrolled in the Bridge program
athlete (Y)	TRUE / FALSE	True if the student is an athlete (D1)
declined_meals (Z)	TRUE / FALSE	True if the student declined meal delivery
declined_meals_date (AA)	MM/DD/YYYY	Date the student declined meal delivery
meal_box_date (AB)	MM/DD/YYYY	Date the student received a meal box
second_meal_box_date (AC)	MM/DD/YYYY	Date the student received a second meal box

Label (Column)	Format	Description
all_assignees (AD)	char	All people who were assigned to this case
all_roomspace (AE)	char	All rooms the student utilized
all_touches (AF)	char	All people / entities who edited the student record
quarantine_case (AG)	TRUE / FALSE	True if the student was ever in a quarantine status
isolation_case (AH)	TRUE / FALSE	True if the student was ever in an isolation status

COVID Housing Jira Event History through 4-30-2021.csv

Label (Column)	Format	Description
id (A)	Integer	Entry number
history_datetime (B)	MM/DD/YYYY hh:mm	Military time at which change was made
history_id (C)	Integer	Identifier of edit session
issue_key (D)	HOUSING- #####	Identifier of record into which comment was entered
jira_displayname (E)	char	String of entity that made edit (cleansed)
change_field (F)	char	Field in which edit was made
change_fromvalue (G)	Integer	Value that was in field
change_fromstring (H)	char	Value that was in field
change_tovalue (I)	Integer	New value of field
change_tostring (J)	char	New value of field
